	Examiner Alton N. Pryor	Art Unit 1616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's arguments filed 6/23/04 have been fully considered but they are not persuasive. See argument below.

- I. Rejection of claims 1-5,7 under 35 USC 102(b) as being anticipated by Hink (US '371) will be maintained for reason on record and reason as follows. Applicant argues that Hink's composition is for killing mosquitoes, ticks and fleas rather than for preventing mosquitoes from tracking humans. Applicant also argues that Hink's composition utilizes a large amount of linalool in comparison to the amount of linalool employed in instant invention. Examiner argues that in a claim to a composition a statement regarding intended use of the composition has no patentable significance. Therefore, whether the composition is used to target or kill pests has no patentable significance. With respect to the amount of linalool, Examiner argues that Applicant claims are not to an amount of linalool. Therefore, Hink's amount of linalool reads on instant amount of linalool. Applicant argues that sesame oil is not a waxy medium. However, Examiner argues that sesame oil is a fatty acid, and a fatty acid is waxy.
- II. Rejection of claims 2,3 under 35 USC 103(a) as obvious over Hink will be maintained for reason on record and reason as follows. Applicant argues that Hink's composition does not employ an amount of linalool to prevent mosquitoes from tracking humans, but instead, Hink teaches amount of linalool needed to kill insects. Examiner argues that in the absence of unexpected results for instant amounts, the prior art reads on instant claims. Examiner assumes that instant

amounts of linalool can also be used to kill as well as prevent mosquitoes from tracking humans.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
